

personalisation

There are a variety of options to customise the exterior and interior of your conservatory. Here we explore just some of the ways you can add your own, unique finishing touches.

Crestings and finials

Crestings and finials are the decorative fittings that run along the top of your conservatory roof.

A choice of crestings and finials are available with Ultraframe conservatory roofs, dependent on which system you choose. Ranging from the ultra-modern Pikestaff finial and Renaissance cresting to the more traditional Classic and Baroque combination, there are crestings and finials to suit all tastes.

Sceptre Finial,
Elizabethan Cresting

Ball Finial,
Low Profile Cresting

Low Profile Ridge /
Cresting

Not all crestings and finials are exchangeable / compatible with each other. In certain situations - e.g. colours - not all options are available.

Ultraselect

Ultraselect is a decorative strip that styles the inside of your conservatory. Unique to Ultraframe, the strips simply click into place enabling you to change the design if you wish.

Lighting

Lighting is important to create the right ambience in your conservatory. Low voltage spotlights can be fitted into the roof of your conservatory and are available in either a brass or white finish. A selection of lamps and wall lights placed around the conservatory will help to create a cosy feel for enjoying your conservatory in the evenings.

Fans

Range of decorative ceiling fans is available to enhance your Ultraframe conservatory and provide additional ventilation during the warmer months of the year. Available in a variety of designs, with or without light fittings and the choice of an optional remote control, there's sure to be a fan to suit you. Colours range from mahogany blades with brass fittings through to more contemporary fans with maple and chrome fittings.

LivingRoom cross over extension (p14) allows even more lighting options
