

GREAT LOOKING, FAST FITTED, THERMALLY EFFICIENT

REPLACEMENT TILED ROOF THAT CAN INCORPORATE FULL RECTANGULAR GLASS PANELS.

A simple lightweight tiled roof perfect for updating old conservatory roofs in as little as one day. Extremely lightweight, strong and easy to install, UltraRoof380 is faster and simpler than any other solid roof on the market.

Product Definition

UltraRoof380 is the perfect lightweight tiled roof for updating old conservatories. Designed to sit on existing frames UltraRoof380 can incorporate full rectangular glass panels - a cost effective way to flood the room with natural light. Available in three tile colour options the UltraTile is the most authentic lightweight tile available, making the UltraRoof380 the ideal roof replacement choice for you and your customer.
